

SIZE

1 million sq. ft.

DATE

2006-2007

SCOPE

Landscape Architecture

PROJECT DESCRIPTION

Coastland Center, Naples' premier regional shopping mall, underwent a renovation to provide a variety of new restaurant options and to upgrade the mall's primary entry, which was last renovated in the 1990s. Landscape enhancements included a new auto valet and porte cochere, a generous pedestrian spine with outdoor seating connecting the new Cheesecake Factory to the mall, and rich new landscape plantings and night lighting to enhance the main entry to this upscale shopping experience.
