52 acres  
160 lots

## DATE

Ongoing

## SCOPE

Landscape Architecture  
Park & Open Space Design  
Signage / Graphic Design  
Trail Planning & Design

## PROJECT DESCRIPTION

West Park Estates is an urban infill residential community located in growing agritainment-centric Queen Creek. Desert modern in style, this community is especially enticing due to its direct connection to a future Maricopa County regional park. West Park Estates features pocket parks throughout with turf, playgrounds, and shade structures, as well as tree-lined streets and a trail system that will connect to the regional park.

RVi was responsible for guiding the design of the entry signage and marketing trail, planting plans, streetscape, and trail improvements.
